

ENSE 400

Bi-Weekly Scrum Report-Out

The Ni(c)(k)S

Shayan Khan - Nikolas Lendvoy - Nicolas Achter
Nickolas Schmidt

October 31, 2019

Project Details

What are we doing?

- Designing a home care on demand mobile app for Eden Care Communities

What gap are we filling?

- Home care on demand; offering a way for clients to order homecare on their mobile devices with quick turnaround.

Where We're At

Currently working on:

- Functional Requirements Document
- Low-Fi Prototyping
- Getting set up in DevOps with user stories and product backlog

Meeting with Bill and Mark:

- Open Source licensing for application
- More detailed explanation of services provided
- Future meetings with clients to be scheduled
- Patient information is not kept by Eden Care, HIPPA currently does not appear to be a concern
- Customer personas available from Eden Care/ISM

Group Reflection

- Do you feel you are on track?
 - Yes, for the most part
- Do you feel there are barriers to your success (if any)?
 - No barriers currently, but need to put in more time as a team and get the project going
- Do you need any help going forward?
 - None at the moment
- Any other questions or concerns?
 - Does the university require us to have a privacy agreement with the customers we talk to or with Eden Care?
